FULL-STACK AI DEVELOPER

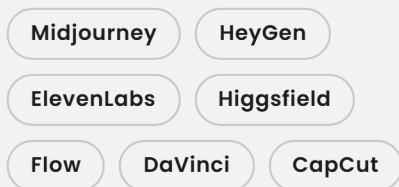

PERSONAL

Name	Jaimes E. Cabante
Role	Full-Stack AI Dev
Languages	English · Filipino
Focus	AI & Automation
Experience	1+ year

SOFT SKILLS

- ◆ Communication
- ◆ Teamwork
- ◆ Critical Thinking
- ◆ Adaptability
- ◆ Time Management

CREATIVE TOOLS

INTERESTS

- ✦ AI & Tech Trends
- 🛠 Application Development
- 🎨 Digital Art & Design
- 📖 Continuous Learning

PROFILE

Full-Stack AI Developer who builds, deploys, and automates with Claude AI and Claude Code at the center of every project. Experienced in end-to-end development across React, Spring Boot, Firebase, and Supabase, with a strong focus on LLM integration, intelligent automation systems, and AI-generated content (AIGC) production.

WORK EXPERIENCE

2025

AI Executive & Project Coordinator

LIFEWOOD DATA TECHNOLOGY · MAY 2025 – JUN 2026

- Built and deployed full-stack AI-powered websites end-to-end, including frontend UI, REST APIs, and SQL/NoSQL databases (PostgreSQL, MySQL, Supabase, Firebase) using Claude Code, React, Spring Boot, and Vercel.
- Cut manual workload through LLM-driven automation, RAG pipelines, n8n workflows, and advanced prompt engineering, using Claude Code for daily coding and Claude AI for research and workflow design.
- Produced AIGC assets (images, video, and digital avatars) for client campaigns with Midjourney, HeyGen, Higgsfield, Flow, ElevenLabs, and Sora.
- Built Power BI dashboards and custom visualization tools from raw Excel data to support stakeholder decisions.

2025

IT Intern

LIFEWOOD DATA TECHNOLOGY · JAN 2025 – MAR 2025

- Built web and game-based applications applying SDLC principles and core programming fundamentals.
- Contributed to live company projects, strengthening debugging, testing, and version-control skills in real industry workflows.
